Waterbury, Conn., Sept. 25.—M.

E. Welton, owner of a herd of catile which has been poisoned by bites of mosquitoes which had first bitten the careas set for the first days of the October term. Court will convene the second Monday of the month, October 10, and most of these cases were set for Tuesday, O-tober II.

From that day they would be continued on the calendar until all had been argued and disposed of.

It is expected that Mr. Bowers' death will compel the Government to set most of these cases aside temporarily, until other officials of the Department of Justice can go over them and prepare their arguments. The Solicitor General was a prodigious worker, and did an immense amount of his work without assistance. It is not expected that other attorneys of the department will be able to take the cases up on his briefs and present them to the court.

Most of these twenty-three cases are appeals from lower courts in criminal cases where the Government lost out. Until the recent act of Congress giving the Government lost. The new statute gives the Government lost. The new statute gives the Government attorneys and the Supreme Court an additional burden of some magnitude.

Aside from the changes caused by Mr. Bowers' death, the absence of a full ach will make necessary the postonement of the big Government cases et by Attorney General Wickersham for November 14, the Standard Oil cas case. There seems to be no doubt that these two cases and other important suits coming early on the October calender, will not be called for argument until there are nine judges to hear them from the supreme bench.

Cases of unusual importance that will fall under this posponement are, in addition to the two named, the corporation ax case, in which Solicitor General Sowers was the principal attorners.
